Test Case: Book Lowest Price Flight Successfully

Description: Verify that a user can search flights, select the lowest price flight, complete booking, and see confirmation message.

Steps:

1. Navigate to https://blazedemo.com/
2. Select **Boston** as departure city
3. Select **London** as destination city
4. Click on **Find Flights** button
5. Verify that flights result table is displayed
6. Count number of flight rows
7. Verify at least one flight is available
8. Capture all flight prices from the table
9. Identify the lowest price among all flights
10. Click on **Choose This Flight** for the lowest price row
11. Enter passenger details:

- Name: John
- Address: 1403 American Beauty Ln
- City: Columbus
- State: OH
- Zip Code: 43240
- Card Type: American Express
- Card Number: 6789067345231267
- Expiry Month: 10
- Expiry Year: 2024
- Name on Card: John Canedy

12. Click on **Purchase Flight** button
13. Capture confirmation message

Expected Result:

- User should be able to book the lowest price flight successfully
- Confirmation message **"Thank you for your purchase"** should be displayed
